

2021-22 Consolidated Application for ESSA-Funded Programs - 2021Introduction - Executive Summary

Executive Summary

BEAVER RIVER CSD - 231301040000

The New York State Education Department (NYSED) has developed the online *2021-22 Consolidated Application for ESSA-Funded Programs* to support the timely administration of ESSA-funded programs to local educational agencies (LEAs) across the state.

The application is streamlined to focus on the required assurances from Section 8306 of the ESSA, as well as fiscal and programmatic information that staff have determined is necessary to properly administer each program. The additional information requested in the application will allow NYSED reviewers to ensure that all LEAs are fully prepared to effectively address key provisions of ESSA regulations. For example, the application includes a significant focus on consultation with required constituent groups in the design of ESSA-supported programs. Even though LEAs will provide assurances that consultation has occurred, NYSED has determined that evidence of that consultation should be provided as part of the application process. Toward that end, documentation of the constituent groups included in consultation, along with a *Written Affirmation of LEA Consultation with Private School Officials Form* will be required as part of the initial application.

The online format dramatically improves NYSED's capacity to collect and analyze district-provided data in a timely manner, and then utilize that data to provide targeted support to LEAs as part of shared continuous improvement efforts. For example, the format will allow NYSED to quickly review LEA-determined per pupil amounts for Title I, Part A programs to confirm that funds for services are appropriately distributed among eligible public and non-public schools. For LEAs whose calculation methodologies are not clear or are not consistent with ESSA requirements, NYSED program staff will be able to provide immediate technical assistance to ensure the proper distribution of funds.

The online application also supports better coordination among NYSED program offices – furthering the Department's capacity to support continuous improvement through technical assistance. For example, consultation forms and other data related to equitable services to private school students and teachers will be shared with the Ombudsman to help coordinate technical assistance and monitoring efforts between the Office of ESSA Funded Programs and the State Office of Religious and Independent Schools. Similarly, data about an LEA's use of Title II, Part A funds will be easily shared with District and School Review Teams from the Office of Accountability and the Office of Educator Quality and Professional Development to help LEAs maximize the use of evidence-based professional development strategies in identified schools.

- Yes, the LEA evaluated the progress made toward achieving the goals from the previous school year.
 No, the LEA did not evaluate the progress made toward achieving the goals from the previous school year.

- 1a. **To what degree did the LEA make progress toward achieving the Title I, Part A goals from the previous school year?**

 The LEA met the goals it set for the previous school year.

2. **In the space provided below, please describe (1) the specific student needs that impact academic achievement, and (2) how your Title I, Part A program is designed to address those needs. The needs should be identified through a recent needs assessment, include homeless and/or neglected youth as applicable, and provide the basis for coordinated efforts on the part of the LEA to address them. (PLEASE NOTE - All program activities supported by Title I, Part A funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.)**

Beaver River Central School has developed a Title I program to meet the needs of students who may be struggling academically. Through state assessments (Regents, NYSTP, etc) and local assessments such as the Fountas and Pinell, Gates-MacGinitie, and local benchmark assessments we determine individual student needs. In the 2018-19 school year. 50% females pass the ELA test with a 3 or 4 while only 36% of the males passed with a 3 or 4.

Many eligible students that can participate in dual enrollment courses do not enroll due to the financial hardship associated with the courses. These courses would allow the students an opportunity to experience college courses outside of high school increasing the exposure to college and career readiness. Parents play a key role in student success.

We have provided activities for parents that support reading at home but getting targeted parents to participate has been a struggle.

Our after school program produces results in student achievement. This program is integral part to helping struggling students improve. Nutritional snacks provided during this time enables the students to focus on their learning activities. Our resources for funding for snack supplies have been exhausted from the previous year.

3. **In the space below, please describe the specific goals and/or outcomes the LEA has identified based on the information provided above. The goals/outcomes should be measurable and aligned directly to the above identified needs impacting student achievement.**

Our staff will provide targeted instruction that addresses deficiencies found through data analysis and we will continue to identify students who need intervention services in reading in K-2 with Fountas and Pinnell and 3-5 with Gates-MacGinitie. Our goal for the 20-21 school year is to increase to the proficiency on the ELA assessments to 60% for females and 40% for males.

All students enrolled in a dual enrollment program that face financial hardship will have the costs associated with the course paid for so that they are able to participate in the course and gain valuable college experiences while still enrolled in high school.

We also know that parent involvement is key so we are planning a Literacy Celebration which will include parent involvement activities during the month of October. These activities provide enriching reading activities that are done by both the student and the parent with a collaborative celebration at the end.

Snacks will be provided for students attending the after school/extended day program. Over the past year we needed to fund raise in order for these snacks to be provided. Students will see an increase in grades and academic performance when attending the after school program.

2. **In the space provided below, please describe (1) the specific student and/or teacher needs that impact academic achievement, and (2) how your Title II, Part A program is designed to address those needs. The needs should be identified through a recent needs assessment, and should provide the basis for coordinated efforts on the part of the LEA to address them.**

(PLEASE NOTE - All program activities supported by Title II, Part A funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.)

Through our professional development committee, state assessment data, local assessment data, discussion with new teachers and review of student outcomes on our exit standards we have determined that we have a need for improvement in the following areas:

1. We need to improve our ELA scores so that student achievement is anchored in the 3 or 4 range.
2. We also need to improve our student success rate around the BRCS Exit Standards found here: http://www.brcsd.org/about_us/b_r_c_s_exit_standards. We have not been able to provide students with all of the resources they need to take ownership of their own learning and we strive for students to exit Beaver River becoming productive citizens and college and career ready. We also strive to improve student 21st century skills of collaboration, creativity, communication, and critical thinking.
3. Retain and encourage all teachers to acclimate to the BRCS culture and climate of maintaining student success in the ever changing state standards. We have not been able to provide high quality professional development to all teachers due to the financial burden placed upon the District.
4. New teachers not only need to learn their craft in terms of curriculum, instruction and assessment, but in order to retain these teachers they need to be connected to current veteran staff and learn the culture of the school district

3. **In the space below, please describe the specific goals and/or outcomes the LEA has identified based on the information provided above. The goals/outcomes should be measurable and aligned directly to the above identified needs/obstacles impacting student achievement.**

Continue to identify students who need intervention services in reading in K-2 with Fountas and Pinnell and 3-5 with Gates MaeGinitie so that we are able to increase 5% of on level reading students and the proficiency on the ELA assessments by 5% for females and males.
 We want 100 % of the students that complete the employability profile to meet or exceed expectations so we know that they are ready to be productive citizens whether they join the workforce or go to college. As a way to demonstrate college and career readiness, we want 95% of our graduates to attend college or immediately join the workforce in a specialized trade.
 All teachers will participate in district wide committees and commit to improving our school district. High quality professional development will be offered to all staff through professional development days as well as utilizing trainings outside of the district including statewide conferences . These trainings will provide the opportunities for teachers to share their new knowledge and ideas which will assist in the growth of district initiatives. These trainings will be aligned with district priorities of student centered learning, understanding poverty/trauma, and technology.
 A mentor coordinator will provide support for our mentor program. This coordinator will have direct contact for mentor/mentee teams and will provide resources for the new teacher to stay connected to both school and veteran staff.

(Please Note - All program activities supported by Title IV, Part A funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.)

The rise of mental, physical and emotional concerns for students have risen significantly in the past year due to the pandemic. There is a direct impact on student learning when these concerns arise in a student's life. While we have been able to increase some of our local services, we have not been able to make a solid connection between home and school particularly for the students who may have these types of needs. For example, a home school coordinator would enable us to explain and enroll students in services that we often offer in the building, but are unable to get the appropriate paperwork filed once the parents go home. The home school coordinator will also be able to provide services that relate to student attendance and provide resources for academic supports as well as emotional supports.

2f. In the space provided below, please describe the goals, objectives and intended outcomes of the Well Rounded Educational Opportunities, Safe and Healthy Students, and/or Effective Use of Technology content areas of the Title IV, Part A program based on the results of a recent needs assessment.

Paperwork that is intended to enroll students in services are accurately completed and returned in a timely manner in order to start services as soon as possible. We will measure the student achievement for students identified with emotional/mental health needs. We would like to see 75% of families contacted to accept the services that are offered by the home school coordinator through the District. In addition as we move to 1:1 with chromebooks, our students that are in the 1:1 program will complete approximately 30% of their work through google classroom.
